

The Life Cycle of a Chicken

Instruction

- Look for the pages with the half-egg shapes. There should be 3 pages with 2 half egg shapes on each page.
- Carefully cut out the half-egg shapes from those pages. You will have a total of 6 half-egg shapes.
- Locate the pages with the egg yolk shapes. There should be 2 pages with 6 egg yolk shapes in total.
- Use scissors to cut out the egg yolk shapes from those pages.
- Take one half egg shape and apply glue to one side. Place an egg yolk shape on the glued side of the half-egg shape.
- Repeat step 5 for all the remaining half-egg shapes and egg yolk shapes.
- Once all the egg yolk shapes are placed on the half-egg shapes, fold each half-egg shape in half, matching the edges together. Press firmly to secure the glue.
- You have now created 3-D chicken life cycle crafts!
- Find the pages with the chicken life cycle sequencing cards, the black and white chicken life cycle poster, and the color life cycle of a chicken poster.
- Cut out the life cycle pictures provided on the two pages.
- Glue the cut-out pictures in the correct order to complete the chicken life cycle according to the sequencing cards.
- Admire your completed chicken life cycle worksheet and crafts!
