

Instructions

Find a Comfortable Spot:

Choose a quiet and comfy place where you can enjoy coloring.

Pick Your Favorite Page:

Flip through the book and choose a solar system page you want to color.

Gather Your Coloring Supplies:

Use crayons, markers, or colored pencils to bring the planets and space to life.

Start Coloring:

Take your time and enjoy filling in the pictures with bright and beautiful colors.

Be Creative

You can follow real space colors or use your imagination to create a colorful universe!

Stay Inside the Lines:

Try your best to color neatly, but don't worry if you go outside the lines. It's all about having fun!

Learn While You Color:

As you color, think about the planets, stars, and space. Ask a grown-up to help you learn more about the solar system!

Share Your Artwork:

Show your family and friends your colorful solar system creations!
